

FORET

MOTIFS OF THE FORET WERE INSPIRED BY THE ROTHSCHILD, ONE OF HEREND'S BEST KNOWN DECORATIVE PATTERNS.

HOWEVER, WITH THE FOREST BEING ITS MAIN THEME, IT REPRESENTS VARIOUS PLANTS AND BIRDS IN A UNIQUE TWIST.

TEEMING WITH LIFE OF ALL KINDS, IT IS MAINLY THE DENSELY GROWING TREES THAT LEND FORESTS THEIR FUNCTION AS HABITATS AND REFUGES.

THE EXPRESSIVE ORNAMENTATION IS EVOCATIVE OF THIS LUSH WORLD. AVAILABLE IN SIX DIFFERENT ARRANGEMENTS OF BIRDS, THE MOTIF FEATURES DEPICTIONS OF RICH FOLIAGE AROUND THE RIMS OF PLATES AND OTHER ITEMS.

CARRYING A LAYOUT THAT IS BOTH CONCENTRIC AND ECCENTRIC, OBJECTS ADORNED WITH THE FORET ADD A DASH OF YOUTHFUL VIGOUR TO ALL DINNER TABLES.

THANKS TO THE COLOURFUL AND VIVID COMPOSITIONS, ONE CAN ALMOST FEEL THE BREEZE OF THE FOREST AND THE CARESS OF LEAVES, OR HEAR THE CHORUS OF SONGBIRDS.

A SUMPTUOUS MEAL IN THE OUTDOORS – WHEREVER YOU ARE.
